Note (13) \* FPD Re-organization: To continue in facilitating consistent department statistics. The CrimeView Bureau was established on May 1, 2006, and is under the command of Lieutenant Mark Salazar. The CVB is comprised of 14 UCR Clerks and 6 Crime Analysts, that work collectively to provide accurate and timely deliverance of the of the Return A Report.

Note (12) \* Violent Crime/Property Crime totals for 2006 includes prior year 2005 counts.

Note (11) \* Homicides for 2005 includes a prior year case ruled as a homicide this year.

Note (-10) \* May - Aug arson stats not complete until reviewed by The FPD Arson Investigator.

Note(-9) Arson Category represents a cumulative adjustment of 2 months of Arson cases given to Arson investigators for review.

Note(-8) \*E-Reports added to correct system compatibility issues. (March 2005)

Note (-7) \*Fire Department reorganized a reporting process; which, for April 2004, the numbers are lower than what would otherwise be considered normal. Preliminary indications reflect that May will be significantly higher in terms of reporting due to cumulative adjustment.

Note (-6) \* The number of Homicides reflects one more than actually occurred in YTD 2004. The difference reflects an April 2003 death that was reclassified in February 2004 to a Homicide as a result of forensic findings.

Note (-5) \* As of Jan 2004, carrying forward a process that began in 2003, arsons are not reported until an Arson Investigator investigates the report and deems it an actual arson. The Fresno Fire Department has adopted a new program, National Fire Incident Reporting Systems (NFIRS), and not all records have been imported at this time.

Note (-4) \* The population for the City of Fresno has been adjusted to reflect the figures published by the City of Fresno Development Department, California State Department of Finance.

Note (-3) \* The number of Homicides submitted to the FBI include one more than actually occurred in 2003. The difference reflects a Year 2000 death that was reclassified in 2003 to a Homicide as a result of improved forensic findings. The November 2003 report reflects three homicides that were previously reported and subsequently deemed justifiable, resulting in a negative three count.

Note (-2) \* Note, a preliminary report was released to PIO in February 2002. This report reflected that there were 421,568 CFS for Year 2001. Further inspection to assess the validity of the data revealed that this information was derived directly using a default Data911 internal report. Analysis by programming staff in Police-ISB revealed that the results in using this program provides information inclusive of not only unique Police Events; but, also Fire Calls and multiple Police event transactions. The result of this initial (pre-audit) condition provided an inaccurate representation of the CFS data. The correct data as of 3/22/2002 is reflected in the above table.

Note (-1) \* Note, Year 1999 and 2000 UCR Data has been calculated to be within a 95% degree of accuracy. In December 1999, a new CAD/RMS system was brought in which did not accurately capture DER Larceny counts; thus, resulting in a lower than nominal Larceny count figure. In 1999, it was discovered that the new RMS/CAD system resulted in several months of duplicate values. These duplicate values inflated the crime statistics and our vendor was put on notice to make required corrections. No corrections were made until a reliable system was developed in-house which was made operational in late 2001. As such, for reliable comparisons, year 1999 and 2000 data should be excluded from any viable analysis. [Conrad Nerdahl, Police ISB Manager].
